## KITECH Forum

Rare Metals: Eco-Friendly Processing Technology and Applications

1:30pm, August 4, 2023, Friday, Room Houston

### ***KITECH Forum***

KITECH Forum focuses on analyzing the current state of the rare metal industry in Korea and highlight the role of the Korea Institute for Rare Metals (KIRAM) at the Korea Institute of Industrial Technology (KITECH). Furthermore, we introduce the infrastructure development projects and research and development (R&D) cases of KIRAM especially on the topic of eco-friendly processing technology and applications, and discuss strategies for enhancing the competitiveness of the Korean rare metal industry and stabilizing the supply chain in the rapidly changing global value chain (GVC) environment.
