## CHEY Forum

Space Exploration and Discovery

1:30pm, August 3, 2023, Thursday, Enterprise Ballroom

### CHEY Forum

The Chey Institute for Advanced Studies is delighted to present the forum “*Beyond Earth: Space Exploration and Discovery*.” This forum aims to illuminate the latest advancements in space science and technology. Distinguished speakers, including Nobel laureate Barry Barish, renowned for his groundbreaking work on the discovery of gravitational waves, Daniel Scheeres, an esteemed expert in celestial mechanics from the University of Colorado Boulder, and Hyochoong Bang, a leading researcher in aerospace engineering at KAIST, will share their expertise. By exploring new frontiers, we anticipate fostering collaboration, exchanging knowledge, and inspiring further advancements in our understanding of the universe.
