KEIT Distinguished Forum

Korea Evaluation Institute of Industrial Technology (KEIT) is the leading organization contributing the growth of manufacturing industry through development, application & commercialization of manufacturing technologies and supports for Small and Medium Enterprises (SMEs) in Korea. Its roles include planning, assessing and management of national industrial research and development programs under the Ministry of Trade, Industry and Energy (MOTIE). Since 2014, KEIT along with MOTIE has organized the KEIT Research Strategy Forum (KEIT Forum). By promoting the participation of Korean-American scientists and engineers in planning of Korea national R&D projects, we hope to improve the productivity and global cooperation in its R&D programs. To better identify and promote creative and innovative ideas for its national R&D projects planning, the major industry and technology trends will be discussed with Korean-American scientists and engineers in various areas and Korean government organization including KEIT. This year's KEIT Forum topics includes presentation of MOTIE's R&D roadmap and KEIT's policies and programs for promoting the emerging industries with focus on four industrial technology areas such as Biomedical, Materials, Batteries, and Autonomous vehicles.
